FOR IMMEDIATE RELEASE

**GROWTH SPURS HEALTH LANGUAGE TO RELOCATE
CORPORATE HEADQUARTERS TO DENVER
TECHNOLOGY CENTER**

DENVER – Sept. 23, 2008 – [Health Language, Inc.](#)® (HLI), the world's leading supplier of language engine technology for medical vocabulary, today announced the relocation of its corporate headquarters to the Denver Technology Center (DTC), a corporate complex for leading technology companies. The new office, which significantly increases HLI's workspace, is located at 4600 South Syracuse, Suite 1250, Denver, Colo. 80237.

HLI offers healthcare organizations, application solution providers, payers and government agencies software tools to effectively localize, update and disseminate more than 70 controlled, licensed healthcare terminologies, mappings and other terminology-related content issued by standards bodies. These tools enable users to standardize clinical and coding terminologies across their enterprise.

"Throughout 2008, we have added 25 percent more clients and our relocation positions us for further growth and expansion," said George Schwend, HLI's CEO and president. "As the world's leading provider of solutions that promote data and clinical information systems interoperability to improve quality and patient safety, HLI is experiencing dynamic market demand for its offerings. Our new headquarters, which was customized to meet our needs, includes a new communication system and larger data center to meet the needs of clients and employees worldwide more efficiently and effectively."

4600 S. Syracuse St.
Suite 1250

About Health Language Inc.

Denver-based Health Language, Inc.[®] (HLI) develops and delivers state-of-the-art software solutions that automatically incorporate medical vocabulary and coding standards into healthcare information technology (HCIT) applications. HLI's Language Engine[®] (LE[®]) allows centralized access to medical terminology standards and generates mappings to create a common pool of standardized codes and concepts that enhance patient safety, facilitate clinical outcomes analysis and accelerate reimbursement. It also provides standards for modeling, storing, updating and distributing information consistently for interoperability between hospitals, regions and countries. For more information, visit www.healthlanguage.com or call 303.307.4400.
