Health Language, Inc. Appoints New Chief Technology Officer

John Christopherson Brings Years of Direct Healthcare IT Experience to the HLI Team

AURORA, CO USA – October 4, 2004 – Health Language, Inc., (HLI) the world's leading supplier of medical vocabulary and concept-based technology, announced today that John Christopherson has joined the company as Chief Technology Officer. Mr. Christopherson brings more than 24 years of technology experience, specifically with 16 years of Healthcare Information Technology (HCIT) experience.

Prior to joining HLI, Mr. Christopherson was Vice President, Application Architecture, McKesson Provider Technologies (MPT) where he was responsible for product development architecture and technology for all of MPT business units. Mr. Christopherson has also served as Chief Information Officer for Abaton.com and Vice President, Corporate Systems for UNITEDhealthcare Corporation. Mr. Christopherson obtained his MBA from Marquette University, where he graduated with honors. His undergraduate degree is in Information Systems and Computer Science from the University of Wisconsin.

Mr. Christopherson will assume responsibility for Technology Architecture, Software Development, Implementation Services, Customer Support and Data Center Operations at HLI. His focus is to provide additional vision and executive leadership for continued enhancement of HLI development and business processes to support our growing customer base. Mr. Christopherson will also be working closely with HLI's Chief Medical Officer, Dr. Brian Levy, to develop improved processes and methods that span HLI Software and Content Development functions.

"We are fortunate to have someone with John Christopherson's depth of experience step into this crucial role at HLI. His extensive background in HCIT provides solid support for our existing technology and generates new opportunities and vision for future strategies", stated George Schwend, President and CEO of HLI.

About Health Language Inc.

Health Language, Inc. (HLI) services the worldwide healthcare industry through innovative software infrastructure technology and expertise. Effective and accurate clinical information is the objective of HLI's Language Engine™ (LE™) technology. LE enables the integrated and intelligent management of all enterprise health related terminology in a single environment, allowing local changes to be merged with periodic releases from standards bodies. HLI services the world's leading Healthcare IT vendors, clinical content providers, and national governments that have chosen the power of LE as their single terminology services solution for management and delivery of the multitude of disparate medical terminologies in use today. Health Language, Inc., is based in Aurora, Colorado, USA. Further information on Health Language, Inc is available at www.healthlanguage.com or by calling 303-307-4400.
